

**Little Charmers - Free Mylar Snowbabies 5**

Redwork is very simple. It requires just one color of thread to sew out the entire design. The first redwork was actually done with red thread on a white background in the 1800's. Today, you can choose any color you like for your embroidery.

Since these designs are so "light" in terms of density, they require only a single layer of stabilizer. We use one layer of tear away stabilizer hooped with the fabric.
